

Framing Options

Cove Frame

This is one of our most popular framing styles and features a wide white mat with white frame in gloss or matt finish. Framed with archival paper, mat and UV glass. These limited editions can be signed on the mat or on the back. They look great on most walls with their natural white finish.

Woodgrain Box-Mounted Frame

This new frame is box mounted with a beautiful woodgrain frame (20mm wide for less than 800mm sizes and 40mm for over 800mm prints). The print is made on archival cotton rag art paper with a white border that eliminates the need for a mat. We use a high quality UV glass or optical acrylic for the very big sizes. These can be signed on the border or on the back.

Mounted Print

The most cost-effective way to buy our artwork. Our small option fits directly into an 8 x 10" frame and the large a 12 x 16" frame.

Print Only

Perfect for sending overseas. We use archival cotton rag art paper for these. Prints are signed and numbered on the border.

Block Mounted Print

Ready to hang with the print applied to a black custom wood backing with a thickness of approximately 18mm.
